

The Testing of Paper: February 12, 1921 (Classic Reprint) (Paperback)

By Frederick Augustus Curtis

Forgotten Books, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Testing of Paper: February 12, 1921 Chemical testing; Loading material; Sizing; Total resins; Starch; Glue; Microscopical testing; Procedure; Estimation; Microphotography; Bibliography; Books; Periodicals; Government publications; Regulations regarding tests; Fees; Sampling Introduction 1. The testing of paper by means of scientific methods has received an increasing amount of attention in the United States during the past 10 years. This has been brought about largely by the increase in the number of technically trained men in the industry and the desire of placing empirical and practical tests upon a more accurate basis. The purpose of this circular is to describe the methods of testing paper as used by the paper section of the Bureau of Standards and adopted as a result of testing a large number of samples of various kinds of paper during a period of years. These methods are those that are in common use in paper-testing laboratories and are given to fill a need expressed by laboratories and the general public. Proposed new methods and special tests are not included in this circular,...
