This pdf may be really worth a read, and superior to other. It generally does not price too much. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Rutgers University Press. Hardback. Book Condition: new. BRAND NEW, How the Other Half Worships, Camilo Vergara, Domestically and abroad, America is known as the richest country in the world. Over a period of thirty years, sociologist and photographer Camilo Jose Vergara repeatedly visited these places of worship and the eclectic mix of buildings that house them. In twenty-one cities located in ten states across the country, photographic sequences coupled with insightful narrative show how ordinary structures assume, modify, and shed a religious character, how traditional churches - if they fail to adapt to new congregations - are demolished, and how new churches are designed and built from the ground up. Vergara pays special attention to the objects, texts, and imagery that religious leaders make use of to create environments that inspire devotion. Pastors of developing congregations often arrive as crusaders, with missions that cannot be served by traditional religious iconography, and with budgets that force them to use inexpensive materials. In some cases,...
