And certainly for the values of the constants assumed, p. 271, the formula gives results agreeing remarkably with those of Amagat. Does it not agree with them more closely than is necessary, considering that the calculated results are, in the matter of the constant c , only approximate? 30. The relation between kinetic energy and temperature. In the original or elastic sphere form of the theory we are compelled to treat kinetic energy of translation as identical with heat, and as a measure of temperature, because it is the only form of energy which we allow our system to possess. When we give our molecules many degrees of freedom, and as many forms of kinetic energy, the question arises, which of the corresponding forms of energy measures temperature? We quieted our consciences for a time by...
