Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Cancer is a common disease with a devastating impact on the physical and psychological well being of patients. The diagnosis of cancer brings upon many clinical challenges and questions for which clear and simple answers are not always provided by modern medicine. To date, only limited therapeutic options are available for patients with advanced cancer. The recent shift toward targeted therapies has improved substantially patient s survival, however, relapses are frequent and cure remains rare. This led patients and many health care managers to shift attention to the holistic approach of traditional medicine particularly preparations from herbal products to manage and alleviate the disease. This has fostered the need to organize a set of timely, in-depth and up-to-date review covering the latest developments in alternative cancer management from a scientific and clinical perspective dedicated to the medical community and health care providers, as well as to patients and their families. This book brings the latest comprehensive cancer information and practical recommendations...
