For eons, we have felt the need to fight for our rights. .many forms of protest from the housewife who burns the bread on purpose, to organized marches in front of legislative bodies. In some ways, I guess we can say, We ve come a long way, baby. It s one thing to claim we have rights. It s a horse of another color, so to speak, to be absolutely confident in ourselves that it s true. Secondly, we have to be able to validate our claim. Metaphorically speaking, our petitions for equal rights have historically been sneered at by societies at large or we have simply been arrested - placed under home arrest, abused, denigrated or ignored. Eve s Eyes is about how we see ourselves and whether that view is based in truth; and it presents a frank view of a mindset of many modern women. It s time for women and men, alike, to have our vision adjusted to see just how phenomenal females actually are, and that we are, indeed, awesomely and wonderfully made.
